

I as original owner of WJJL AM Radio, Niagara Falls, NY , would like to make a formal complaint against MJ Phillips Communications Inc and would like to see the removal of all construction permits for any other location other than Niagara Falls, New York. When WJJL was opened in 1948 it was to serve Niagara Falls. NO OTHER LOCATIONS. I want that to remain intact. This radio station not only serves the citizens of western niagara county, it serves the niagara air force and army bases too as an auxiliary base station in case of attack. I further think that the people of MJ Phillips Communications Inc. should be considered terrorists for the reason stated above and would like the commissions approval to operate my radio station under the guidelines of a naturalized citizen and if that be the case then to class WJJL as an international radio station until my citizenship is complete. Mr. M. John Phillips has sworn in a perjury statement that he is not my immigration sponsor nor my husband. We know that not to be true because Michael John Phillips filed papers with the FCC stating that i was doing my training course
